

Team Name: Elite Coders

Team Members:

Monisha S (240701335)

Pavithra B (240701380)

Devishree J (240701702)

Project Name : Jet Cultivation

Experiment 3: Use Case Diagram

Procedure: Creating Use Case Diagram in draw.io and Uploading to Azure DevOps

Step 1: Open draw.io (draw.io)

1. Open browser and go to: <https://app.diagrams.net>
2. Choose Device or Google Drive to save diagram
3. Click Create New Diagram

Step 2: Create New Diagram

1. Enter file name (e.g., *Use Case Diagram*)
2. Select Blank Diagram
3. Click Create

Step 3: Draw System Boundary

1. Drag a Rectangle shape
2. Resize it to cover working area
3. Label it as:
4. JC Jet Cultivation System

Step 4: Add Actors

1. From left panel, select UML → Actor
2. Drag actor outside the system box
3. Add:
 - Farmer
 - Admin

Step 5: Add Use Cases

1. Select Ellipse (Oval) shape
2. Place inside the system box
3. Add use cases:
 - Login
 - Sign Up
 - Find Optimal Selling Centers
 - Manage Smart Crop Journey Tasks
 - View Soil Types & Suitable Crops
 - Check River Status
 - View Dashboard
 - Update Soil Data
 - Manage Selling Centers
 - View Nearby Shops
 - Update Farming Phases
 - Get Live River Data

Step 6: Connect Actors and Use Cases

1. Use Connector tool (line)
2. Connect:
 - Farmer → all farmer-related use cases
 - Admin → admin-related use cases
3. Use simple lines (no arrows)

Step 7: Add Relationships (<>)

1. Use dashed arrow connector
2. Add label <>
3. Connect:
 - Find Optimal Selling Centers → View Nearby Shops
 - Manage Smart Crop Journey Tasks → Update Farming Phases
 - Check River Status → Get Live River Data

Step 8: Format the Diagram

1. Align elements properly
2. Keep actors outside the box
3. Ensure neat spacing
4. Use consistent font and size

Step 9: Save the Diagram

1. Click File → Save As
2. Save as:
 - .drawio (editable file)
3. Export:
 - File → Export as → PNG/JPG

Step 10: Open Azure DevOps

1. Go to your Azure DevOps project
2. Open:
3. Boards → Wiki

or

Repos → Files

Step 11: Upload Diagram

Option 1: Wiki Upload

1. Open your Wiki page
2. Click Edit
3. Click Insert Image
4. Upload your PNG file
5. Save page

Option 2: Repo Upload

1. Go to Repos → Files
2. Click Upload files
3. Upload image
4. Commit changes

Step 12: Verify

1. Open uploaded file
2. Ensure diagram is clearly visible
3. Check formatting and alignment

Result

The Use Case Diagram for Jet Cultivation System is successfully created using draw.io and uploaded to Azure DevOps.
